Active Classroom & Canvas

Active Classroom offers three integration options with Canvas. This document outlines each integration option and the requirements for setup.

Canvas Basic (LTI 1.1)

Canvas API

Canvas Advantage (LTI 1.3)

CANVAS BASIC

Please note: Teachers must be registered, and their rosters must be set up in Active Classroom before using this version of Canvas.

HOW IT WORKS

1. Teacher must create an assignment in Active Classroom to generate an LTI link.
2. Teacher must create an assignment in Canvas and insert Active Classroom LTI link into that assignment.
3. Teachers and students will be able to launch the assignment from Canvas.
4. This version does not support Grade Pass back. All grading happens in Active Classroom, and the grades are not synced to Canvas Gradebook.

SETUP INFORMATION

Admin Setup (Institution-Level Integration): follow instructions **here**.

Teacher Setup (Course-Level Integration): follow instructions **here**.

Key Information:

- **Configuration Type:** Manual Entry
- **Name:** Active Classroom LTI 1.1

INSTRUCTIONS FOR TEACHERS WITH BASIC CANVAS SETUP

After the setup is completed, teachers should follow the instructions in this document.

CANVAS API

Please note: This version includes roster syncing from Canvas to Active Classroom. No additional rostering setup is required.

HOW IT WORKS

1. Teachers must connect and sync their Active Classroom accounts with Canvas.
2. Canvas classes will be synced to Active Classroom.
3. Teacher creates an assignment in Active Classroom, which will automatically sync with Canvas.
4. Teachers and students will launch the assignment from Canvas.
5. Teachers will use Speed Grader to grade the assignments, and the grades will be synced to Canvas Gradebook.

SETUP INFORMATION

Admin Setup (Institution-Level Integration): follow instructions here.

INSTRUCTIONS FOR TEACHERS WITH CANVAS API SETUP

After the setup is completed, teachers should follow the instructions below:

CANVAS ADVANTAGE

Please note: Teachers must be registered, and their rosters must be set up in Active Classroom before using this version of Canvas.

HOW IT WORKS

1. The teacher will create an assignment in Canvas and will select Active Classroom LTI 1.3 tool.
2. A new window will open, and the teacher will select an Active Classroom activity, which will be inserted into the Canvas assignment.
3. Teachers and students will launch the assignment from Canvas.
4. When a user is launching the assignment in Canvas for the first time, they will connect their Canvas account with Active Classroom and authorize access to Active Classroom.
5. Teachers will use Speed Grader to grade the assignments, and the grades will be synced to Canvas Gradebook.

SETUP INFORMATION

Admin Setup (Institution-Level Integration): follow instructions here. To access this link you need an admin account in Active Classroom. If you do not have one, please reach out to help@socialstudies.com.
